

Learning is an action word.

Take your education to the next level by following your passion and connecting with the community. When you learn in an environment outside of classwork, you gain real-world experience, and develop a network of social and professional contacts that enrich your future.

Experiential Learning

is a process where learners engage in experiences and increase their knowledge, develop skills, and/or clarify values through focused reflection.

Work-Integrated Learning

Global Opportunities

Learn by doing.

- Connect with personalized experience-based learning opportunities.
- Get real-world experiences with field work, internships, research, clubs, and more.
- Open a wider world of opportunities.

Try the Elevate Experience Finder

Put the Experience Finder to work for you and discover new experiences.
